

Computer Science

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<u>Hardware</u>	<p>Learning how to explore and tinker with hardware to find out how it works</p> <p>Understanding that computers and devices around us use inputs and outputs, identifying some of these</p> <p>Learning where keys are located on the keyboard</p> <p>Learning how to operate a camera</p>	<p>Understanding what a computer is and that it's made up of different components</p> <p>Recognising that buttons cause effects and that technology follows instructions</p> <p>Learning how we know that technology is doing what we want it to do via its output.</p> <p>Using greater control when taking photos with tablets or computers</p> <p>Developing confidence with the keyboard and the basics of touch typing</p>	<p>Understanding what the different components of a computer do and how they work together</p> <p>Drawing comparisons across different types of computers</p> <p>Learning what a server does</p>	<p>Learning about the purpose of routers</p>	<p>Learning that external devices can be programmed by a separate computer</p> <p>Learning the difference between ROM and RAM</p> <p>Recognising how the size of RAM affects the processing of data</p> <p>Understanding the fetch, decode, execute cycle</p>	<p>Learning about the history of computers and how they have evolved over time</p> <p>Using the understanding of historic computers to design a computer of the future</p> <p>Understanding and identifying barcodes, QR codes and RFID</p> <p>Identifying devices and applications that can scan or read barcodes, QR codes and RFID</p> <p>Acknowledging that corruption can happen within data during transfer (for example when downloading, installing, copying and updating files)</p>

<p><u>Networks and data representation</u></p>	<p>Understanding what the internet is</p>		<p>Learning what a network is and its purpose</p> <p>Identifying the key components within a network, including whether they are wired or wireless</p> <p>Recognising links between networks and the internet</p> <p>Learning how data is transferred</p>	<p>Consolidating understanding of the key components of a network</p> <p>Understanding that websites & videos are files that are shared from one computer to another</p> <p>Learning about the role of packets</p> <p>Understanding that computer networks provide multiple services, such as the World Wide Web, and opportunities for communication and collaboration</p>	<p>Learning the vocabulary associated with data: data and transmit</p> <p>Learning how the data for digital images can be compressed</p> <p>Recognising that computers transfer data in binary and understanding simple binary addition</p> <p>Relating binary signals (Boolean) to the simple character-based language, ASCII</p> <p>Learning that messages can be sent by binary code, reading binary up to 8 characters and carrying out binary calculations</p> <p>Understanding how bit patterns represent images as pixels</p>	<p>Understanding that computer networks provide multiple services</p>
<p><u>Computational thinking</u></p>	<p>Learning that decomposition means breaking a problem down into smaller parts</p>	<p>Articulating what decomposition is</p> <p>Decomposing a game to predict the algorithms used to</p>	<p>Using decomposition to explain the parts of a laptop computer</p>	<p>Solving unplugged problems by decomposing them into smaller parts</p>	<p>Decomposing animations into a series of images</p> <p>Decomposing a program without</p>	<p>Decomposing a program into an algorithm</p> <p>Using past experiences to help</p>

	<p>Using decomposition to solve unplugged challenges</p> <p>Using logical reasoning to predict the behaviour of simple programs</p> <p>Developing the skills associated with sequencing in unplugged activities</p> <p>Learning that an algorithm is a set of step by step instructions used to carry out a task, in a specific order</p> <p>Follow a basic set of Instructions</p> <p>Assembling instructions into a simple algorithm</p>	<p>create it</p> <p>Using decomposition to decompose a story into smaller parts</p> <p>Learning what abstraction is</p> <p>Learning that there are different levels of abstraction</p> <p>Explaining what an algorithm is</p> <p>Following an Algorithm</p> <p>Creating a clear and precise algorithm</p> <p>Learning that computers use algorithms to make predictions</p> <p>Learning that programs execute by following precise instructions</p> <p>Incorporating loops within algorithms</p>	<p>Using decomposition to explore the code behind an animation</p> <p>Using repetition in Programs</p> <p>Understanding that computers follow instructions</p> <p>Using an algorithm to explain the roles of different parts of a computer</p> <p>Using logical reasoning to explain how simple algorithms work</p> <p>Explaining the purpose of an algorithm</p> <p>Forming algorithms independently</p>	<p>Using decomposition to understand the purpose of a script of code</p> <p>Using decomposition to help solve problems</p> <p>Identifying patterns through unplugged activities</p> <p>Using past experiences to help solve new problems</p> <p>Using abstraction to identify the important parts when completing both plugged and unplugged activities</p> <p>Creating algorithms for a specific purpose</p>	<p>support</p> <p>Decomposing a story to be able to plan a program to tell a story</p> <p>Predicting how software will work based on previous experience</p> <p>Writing more complex algorithms for a purpose</p>	<p>solve new problems</p> <p>Writing increasingly complex algorithms for a purpose</p>
<u>Programming</u>	<p>Programming a Bee-bot/Virtual Bee-bot to follow a planned route</p> <p>Learning to debug</p>	<p>Using logical thinking to explore software, predicting, testing and explaining what it does</p>	<p>Using logical thinking to explore more complex software; predicting, testing and explaining what</p>	<p>Understanding that websites can be altered by exploring the code beneath the site</p>	<p>Programming an Animation</p> <p>Iterating and developing their programming as</p>	<p>Debugging quickly and effectively to make a program more efficient</p> <p>Remixing existing</p>

	<p>instructions when things go wrong</p> <p>Developing a how to video to explain how the Bee-bot works.</p> <p>Learning to debug an algorithm in an unplugged scenario</p>	<p>Using an algorithm to write a basic computer program</p> <p>Learning what loops are</p> <p>Incorporating loops to make code more efficient</p>	<p>it does</p> <p>Incorporating loops to make code more efficient</p> <p>Remixing existing Code</p> <p>Using a more systematic approach to debugging code, justifying what is wrong and how it can be corrected</p>	<p>Coding a simple Game</p> <p>Using abstraction and pattern recognition to modify code</p> <p>Incorporating variables to make code more efficient</p> <p>Remixing existing Code</p> <p>Using a more systematic approach to debugging code, justifying what is wrong and how it can be corrected</p>	<p>they work</p> <p>Beginning to use nested loops (loops within loops)</p> <p>Debugging their own code</p> <p>Writing code to create a desired effect</p> <p>Using a range of Programming Commands</p> <p>Using repetition within a program</p> <p>Amending code within a live scenario</p>	<p>code to explore a problem</p> <p>Using and adapting nested loops</p> <p>Programming using the language Python</p> <p>Changing a program to personalise it</p> <p>Evaluating code to understand its purpose</p> <p>Predicting code and adapting it to a chosen purpose</p> <p>Altering a website's code to create changes</p>

Information Technology

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
<u>Using software</u>	<p>Using a basic range of tools within graphic editing software</p> <p>Taking and editing Photographs</p> <p>Understanding how to create digital art using an online</p>	<p>Developing word processing skills, including altering text, copying and pasting and using keyboard shortcuts</p> <p>Using word processing software to type and reformat text</p>	<p>Taking photographs and recording video to tell a story.</p> <p>Using software to edit and enhance their video adding music, sounds and text on screen with transitions</p>	<p>Building a web page and creating content for it</p> <p>Designing and creating a webpage for a given purpose</p> <p>Use Google online software</p>	<p>Using logical thinking to explore software more independently, making predictions based on their previous experience</p> <p>Using a software programme</p>	<p>Using logical thinking to explore software independently, iterating ideas and testing continuously</p> <p>Using search and word processing skills to create a</p>

	<p>paint tool</p> <p>Developing control of the mouse through dragging, clicking and resizing of images to create different effects</p> <p>Developing understanding of different software tools</p>	<p>Using software to create story animations</p> <p>Creating and labelling images</p>		<p>for documents, presentations, forms and spreadsheets.</p> <p>Work collaboratively with others</p>	<p>(Sonic Pi or Scratch) to create Music</p> <p>Using video editing software or animation software to animate</p> <p>Identify ways to improve and edit programs, videos, images etc.</p> <p>Independently learning how to use 3D design software package TinkerCAD</p>	<p>presentation</p> <p>Planning, recording and editing a radio play</p> <p>Creating and editing sound recordings for a specific purpose</p> <p>Creating and editing videos, adding multiple elements: music, voiceover, sound, text and transitions to create a video advert</p> <p>Using design software TinkerCAD to design a product</p> <p>Creating a website with embedded links and multiple pages</p>
<p><u>Using email and the Internet</u></p>	<p>Searching and downloading images from the internet safely</p> <p>Understanding that we are connected to others when using the internet</p>	<p>Understanding that personal information should not be shared on the internet.</p> <p>Learning how to be respectful to others when sharing content online.</p>	<p>Identify the symbols when in an email</p> <p>Writing an email including a subject, 'to' and 'from'</p> <p>Sending an email with an attachment</p> <p>Replying to an email</p>	<p>Understanding why some results come before others when searching</p> <p>Understanding that information on the internet is not all grounded in fact</p>	<p>Developing searching skills to help find relevant information on the internet</p> <p>Understanding how apps can access our personal information and how to alter the permissions.</p>	<p>Understanding how search engines work</p>

			Identifying useful terms and phrases for search engines			
<u>Using data</u>	<p>Introduction to spreadsheets</p> <p>Representing data in tables, charts and pictograms</p> <p>Sorting data and creating branching databases</p> <p>Identifying where digital content can have advantages over paper when storing and manipulating data</p>	<p>Collecting and inputting data into a spreadsheet</p> <p>Interpreting data</p>	<p>Understanding the vocabulary associated with databases: field, record, data</p> <p>Learning about the pros and cons of digital versus paper databases</p> <p>Sorting and filtering databases to easily retrieve information</p> <p>Creating and interpreting charts and graphs to understand data</p>	Designing a weather station which gathers and records sensor data	Understanding how data is collected	<p>Understanding how barcodes, QR codes and RFID work</p> <p>Gathering and analysing data in real time</p> <p>Creating formulas and sorting data within spreadsheets</p>
<u>Wider use of technology</u>	<p>Recognising common uses of information technology, including beyond school</p> <p>Understanding some of the ways we can use the internet</p>	Learning how computers are used in the wider world	<p>Understanding the purpose of emails.</p> <p>Learning what a search engine is</p> <p>Recognising how social media platforms are used to interact</p>	Understanding that software can be used collaboratively online to work as a team	Learn about different forms of communication that have developed with the use of technology.	<p>Learning about the Internet of Things and how it has led to 'big data'.</p> <p>Learning how 'big data' can be used to solve a problem or improve efficiency</p>

Digital Literacy

EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
	<p>Logging in and out and saving work on their own account</p> <p>Understand the importance of a password</p> <p>When using the internet to search for images, learning what to do if they come across something online that worries them or makes them feel uncomfortable</p> <p>Recognising when someone has been unkind online</p> <p>Learning some top tips for staying safe online</p> <p>Understanding how we 'share' information on the internet</p>	<p>Understanding that personal information should not be shared on the internet.</p> <p>Learning how to be respectful to others when sharing content online.</p>	<p>Learning to be a responsible digital citizen; understanding their responsibilities to treat others respectfully and recognising when digital behaviour is unkind</p> <p>Learning about Cyberbullying</p> <p>Learning that not all emails are genuine, recognising when an email might be fake and what to do about it</p> <p>Learning that not all information on the internet is factual</p> <p>Understanding who personal information should/ should not be shared with</p>	<p>Recognising what appropriate behaviour is when collaborating with others online</p> <p>Recognising that information on the Internet might not be true or correct and that some sources are more trustworthy than others</p> <p>Learning about different forms of advertising on the internet.</p>	<p>Learning about how permissions work and how to change them</p> <p>Identifying possible issues with online communication</p> <p>Considering the effects of screen-time on physical and mental wellbeing</p> <p>Learning about online bullying and where to seek advice</p>	<p>Understanding the importance of secure passwords and how to create them, along with two-step authentication</p> <p>Using search engines safely and effectively</p> <p>Recognising that updated software can help to prevent data corruption and hacking</p> <p>Considering their digital footprint and online reputation and future implications they may have</p> <p>Learning about how to collect evidence and report online bullying concerns</p>
