Numbers Using Nature

Reception children, and friends, have been working hard to create numbers using different objects, both natural and manmade. Well done everyone - absolutely brilliant!

Autumn Is Here!

Autumn is here so Pippin made Autumn hats!

The children went out to see the changing colours of the leaves. They had to stick the nicest leaves to their partner's hat, because they couldn't see their own! This led to lots of interactive conversations and collaboration, building relationships and learning respect. They were so lucky to have a perfect October afternoon to enjoy the wonders of nature.

A Baptism

The children in Willow and Cherry class enjoyed a visual demonstration from Reverend Sidwell of what takes place during a baptism. Ginny the baby experienced her own baptism alongside her parents, godparents, family and friends!

Pippin Class were invited too which they really enjoyed.

The children talked about the meaning of "belonging". They know they belong to in their homes, their school and their church.

Baptism welcomes a baby to the church to "get God's love" according to the children.

Ma Famille

In French, Oak class have created family trees of their whole family.

They had great fun plotting out who's who, and writing their relations names in French - tres bien Oak!
